Mr. Herbert E. Angel, Act. Arch.
The National Archives
Washington, D.C. 20408

Dear Dr. Angel,

Thank you very much for your letter of the 30th and the enclosures.

With regard to Frederick S. O'Sullivan, would you please tell me the reason for the withholding of the November 1963 interview and its CD number. If there are other documents on him, aside from CD389:49 and the typescript of his testimony, I would like to have a copy of each or, if withheld, a statement of why each is withheld.

At 8M29 there is the word "deletion" added to the transcript. However, this does not appear in the copy sent the printing office. Is there anything in any of your files to account for this? From this record there is no accounting of the deletion.

Of the Fena documents of which you were kind enough to inform me, I would appreciate one copy of the 14 pages in CD1307.

In CD 1140, I would like those pages relating to Dr. Fernando Lasbaz other than pages 2 and 5.

I would also like a copy of CE1126. If the rest of the Admiral Burkley file is not extensive, I would like a copy of it. If it is extensive, I would appreciate a list of the contents, if that is no burden on you.

none

The Secret Service interviewed one Travis R. Bankenderfer, in Texas. I would like a copy of this or these interviews and anything else on him.

Relating to Kenneth Smith, there were enclosures in CD87:[illegible], of which I would like a copy aside from this and the following, I would like [illegible] there is relating to him: CD361: 318, 380; CD1107:1035-6.

On page 88 of Chief Jesse Curry's book, the facsimile copy [illegible], is a picture credited to the Dallas Police Department. If this is in the archives, I would like an 8x10 glossy, with a key of any captions or identifications of objects of evidence illustrated.

There [illegible] letter [illegible] picture of the back [illegible] exhibit 8[illegible] your [illegible] after [illegible] at right angles. [illegible] this [illegible] picture, [illegible].

already provided

Thank you very much.

Sincerely,
